

Friends of Ruaha Society 1994-2005

Sue was a committee member of FORS from 1994-2005 and was the Chairperson for FORS for many of those years. Some of their achievements during this period:

Purchase of a Jabiru Aircraft which did daily anti-poaching patrols.

Msembe clinic upgrade. The equipment (valued at \$8000) included a delivery room, small ward and sterilising equipment.

Donation of 10 VHF radio base sets and 5 hand held radios to each of the Ranger posts. These were personally installed by Rob and myself.

Installation of Bushlink to Msembe. This provided the first email communication for Msembe Headquarters.

Printing of the first colour brochure for RNP. This was designed and printed in 1996.

Donation of Equipment to MBOMIPA and Mkopule Game Scouts. This included uniforms, equipment and monthly supplies.

Annual Environmental Programs were run for 6 of the primary schools outside the Park. These included tree planting programs, teaching and environmental day celebrations.

Annual school trips to the park were run for the standard 6 pupils from 6 of the primary schools outside the park. This meant around 350-400 students per year could visit and enjoy the Park.

Annual drawing competition for the 6 schools in the area.
